Percentage of Working-Age Alaskans
who will have a Postsecondary Credential

Alaska Can: Looking Ahead

March 6-7, 2018

Anchorage Marriott Downtown
65by2025.org/conference

Show your support for the **5th Annual Alaska Can 2019 Conference** and our goal of having 65% of Alaskans earning a postsecondary degree, certification or high-need industry credential by 2025 by becoming a financial sponsor. Multiple sponsorship opportunities and levels available through the Alaska Postsecondary Access and Completion Network (the Network), a 501(c)(3) statewide nonprofit working to increase the percentage of Alaskans who complete postsecondary education.

The goal of the Network is to provide access and opportunities for all Alaskans to achieve some form of postsecondary certification. You can help by becoming a conference Sponsor and Network Member! We as Alaskans must come together and work towards this initiative to motivate, network, learn, and collaborate. This conference provides an opportunity for collaborative action and reminds us that we are more powerful together.
